- Problem-Solving
- Adaptability
- Time Management
- Attention to Detail
- Critical Thinking
- Communication

PROFILE

Motivated and detail-oriented Software Engineering student with a strong foundation in web development, including proficiency in HTML, CSS, JavaScript, and React. Passionate about creating user-friendly, responsive, and visually appealing web applications. Adept at problem-solving, learning new technologies, and collaborating in team environments. Seeking to apply technical skills and creativity to contribute to innovative projects and grow as a developer.

EDUCATION

Bachelor of Science (B.S.) Software Engineering , Western Governors University

Millcreek, UT

Expected Graduation December 2025

PROJECTS

To-Do list

- Built a task management app using HTML, CSS, and JavaScript with Object-Oriented Programming (OOP) principles.
- Enabled users to add, delete, and mark tasks as completed while dynamically tracking task progress.
- Demonstrated strong JavaScript skills by implementing logic for efficient task management and state handling.
- Designed a clean and user-friendly interface to simplify task organization.

Spot App Website

- Developed an interactive photo-sharing app using HTML, CSS, and JavaScript.
- Implemented features for uploading, deleting photos, and toggling like/unlike buttons with JavaScript.
- Utilized HTML for structure, CSS for styling, and JavaScript for dynamic interactivity and DOM manipulation.
- Ensured a responsive and user-friendly interface for enhanced user experience.

Coffee Shop Website

- Designed and developed a visually appealing coffee shop website using HTML and CSS.
- Created unique sections, including a detailed "How Beans Are Made" feature, table booking functionality, and an interactive menu.
